

The 6th International Conference of Health Behavioral Science

ICHBS2010

Sustainable Health Promotion: Dialogue on Well-being & Human Security in Environmental Health

September 19th-21st, 2010

University of Malaya, Kuala Lumpur, Malaysia

Objectives

Discuss sustainable health promotion on both the global and local scale from diverse and interdisciplinary perspectives.

Create greater awareness about well-being and human security in the context of environmental health.

Promote dialogue among doctors, nurses, health care workers, educators, professionals, decision makers in the public and private sector, government officials, and those working in related fields from different cultural and religious backgrounds.

Sunday, September 19th
